

KINGSFORD

Masterplan

Kingsford at Bullsbrook was planned from the ground up to be a great place to live.

Nestled within the awe-inspiring beauty of the Darling Scarp foothills, Kingsford offers an idyllic life. The larger than average blocks, parklands and leafy streets create a real feeling of space. The established township of Bullsbrook already provides existing shops, school and services, plus the new town centre will bring a fresh 'urban village' vibrancy to the region. Kingsford is very well connected with The Swan Valley and Chittering Valley nearby, plus new roads connecting to Ellenbrook, Midland and Joondalup. Great Northern Highway and the new Northlink will also make trips to the city and airport hassle-free.

Features

- 2,500 homesites upon completion
- Average lot size in excess of 500sqm
- Over 41ha retained public open space, creek lines, and manicured parklands
- Future Town Centre including a major supermarket, specialty stores, cafés and medical centre
- New school planned to complement existing primary and secondary schools
- New district level playing fields
